These button-holes can be secured only in the hosiery made by the Julius Kayser & Co. They eliminate "runs."

At last an important improvement in stockings . . .

The new Kayser invention consists of six strong buttonholes in the top of the stocking, worked on a tape foundation. The garters clasping through these cannot tear these exquisite stockings, and the chances of a "run" are practically eliminated.

Every woman who has tested them says that they are the greatest, most needed improvement made in any article of women's apparel for years. This feature enables you to enjoy for so much longer the fine weave and lustrous sheen for which Kayser Silk Hose have always been famous.

Every good dealer has them in all colors, and for just what you pay for the old-fashioned kind.

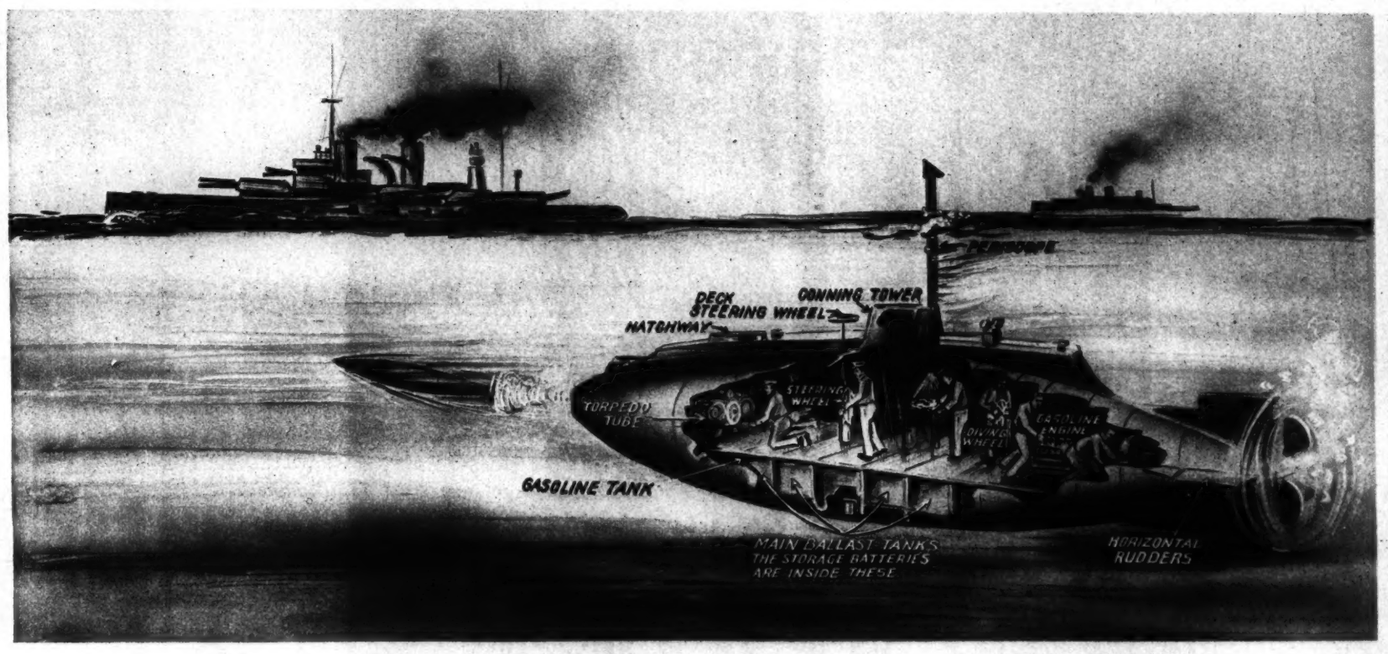
The valuable illustrated pamphlet, "The Mind of the Child," explaining the psychology of this remarkable work, contains two hundred and fifty interesting questions answered in THE BOOK OF KNOWLEDGE, also *pictures* and *color-plates* showing the modern picture method of teaching important facts and entire processes. The Biggest Magnet in the World, the Unseen Ship with the Wonderful Eye, the New Chariots of the Sky, Messages that Fly Through Space, A Coal Mine with the Lid Off, taken from hundreds in the Department of Familiar Things.



One of Ten Thousand Educational Pictures
THE TERRIBLE ENEMY THAT LIES HIDDEN IN THE SEA

Here we see the crew of a submarine firing a torpedo capable of sinking a battleship which has cost, perhaps, Ten Million Dollars. The ship on the waves is seen through the lens of the wonderful eye called the Periscope, which reflects the ship above down the tube on to the table below.

Answers Every Question A Child Can Ask

Why is the sea never still?
Why are the rain drops round?
What is the use of our hair?
Do we think in words?
How far off is the sky?
What makes the heart beat?
What is the milky way?
Why do we go to sleep?
What makes a cat purr?
Why does the kettle sing?
And Thousands of Others

THE FOREMOST EDUCATOR IN THIS COUNTRY SAYS:

"Suppose a boy of ten were to spend fifteen minutes a day reading these pages of THE BOOK OF KNOWLEDGE. He would at thirteen know more about the earth and life on it than the wisest man knew a few generations ago."

PROF. DANIEL W. LA RUE,
State Normal School, Penna., and Harvard University Summer School.

"Let me say that a search through the market has convinced me that this work so far outmeasures all similar attempts as to leave no room for choice. Not only are these books a microcosm of educational material, but they obey the prime law of juvenile education: they are INTERESTING! . . But there is a further virtue of great importance, that of psychological arrangement."

LOUISE H. HAESELER,
President Philadelphia Teachers' Association.

"One of the most difficult tasks that a teacher has to perform is to induce her pupils to secure in an intelligent way information upon an assigned topic for themselves, and the chief cause of the difficulty is the fact that reference books as a rule are written for grown-up people. THE BOOK OF KNOWLEDGE supplies accurate information upon practically every assignable topic in a way that not only arouses the interest of children but also inspires them to continue reading and to proceed from one subject to another."

FASCINATING FACTS ENTERTAINING WORK CONSTRUCTIVE PLAY

The one day in all the year which belongs to the children is Christmas Day. In this year of 1914, instead of toys and trinkets which last only a few hours or a few days, let us give them something which will be a permanent good as well as a present delight. THE BOOK OF KNOWLEDGE is the supreme gift for the child. Hundreds of families in New York City alone will purchase this wonderful work for the home this Christmas. YOU can hardly afford to do without it if there are children in your household between the ages of six and eighteen. These are the years of greatest need, when the child's habits of thinking and reading and the choice of a career are being determined. Do not send your child out into the battle of life only half equipped if you wish him to be one of those who succeed. Make this Christmas memorable by adding THE BOOK OF KNOWLEDGE to the life of the home. It will delight the grown-ups as much as it does the children, and will prove a lasting benefit and blessing to your home.

This Christmas thousands of boys will have bushels of fun building big steel models with the Mysto Erector. Will *your* boy be one of them? You could not find any gift more fascinating or instructive.

With Erector boys can build over 300 models—battleships, torpedo boats, aeroplanes, siege guns, bridges, elevators, machine shops, skyscrapers and hundreds of other interesting structures. It's great fun.

Electric Motor

With all models over $3 I give, without extra charge, an electric motor. It's a lively one—runs models such as elevators, drawbridges, traveling cranes, machine shops, and many others. No other construction set gives a motor free.

Because the Erector girders have turned-over edges, boys can build faster and easier. The models will not buckle up when building; they are stronger and won't wobble.

The Mysto **ERECTOR**
The Toy with Girders Like Structural Steel.

Send for my FREE BOOK

Send me your toy dealer's name and I'll mail you today my Free Book, printed in colors and filled with pictures of many of the Erector models. I will also send you a free copy of my boys' magazine *Erector Tips;* contains photos of boys who build prize-winning models; tells how you can win a prize.

Toy dealers everywhere sell the Mysto Erector, or can get it for you if they haven't it. Eight sizes, $1 to $25. Insist on Erector.

Always remember this fact about your hair

If there is any condition of your hair you want to improve, if it hasn't enough life or gloss, if there is dandruff or too much oil, never forget that the condition of your *hair* depends on the condition of your *scalp.*

How to keep the scalp healthy

To keep the scalp healthy and active, shampoo your head regularly in the following way. Rub your scalp fully five minutes with the tips of your fingers to loosen the dandruff and dead skin. Then apply a hot lather of Woodbury's Facial Soap and *rub it in, rub it in, rub it in.* Rinse thoroughly in gradually cooler water, having the final water really cold. Dry perfectly, then brush gently for some time.

Woodbury's Facial Soap is the work of an authority on the skin and hair. This treatment with it softens the scalp, gently removes the dead skin, keeps the pores active and brings a fresh supply of blood to nourish the hair roots. Try it. See what a delightful feeling it gives your scalp, how alive it makes it feel.

Woodbury's Facial Soap costs 25c a cake. No one hesitates at the price *after the first cake.*

Do this today

Tear out the illustration of the cake below and put it in your purse as a reminder to get Woodbury's. Tear out the cake now. Take it to your druggist or toilet counter today. Begin tonight to get the benefits of this skin specialist's soap.

Woodbury's Facial Soap

For sale by dealers everywhere.

The "Different" Gift

The Curtis "Eye Comfort" Lamp combines with the remarkably efficient **indirect lighting of the entire room,** the decorative effect of the ordinary art lamp.

That is, the small lamps at the base of the large X-Ray Reflector shown above may be turned on separately, which gives the purely decorative art lamp effect, lighting up the area directly underneath.

A separate switch controls the lamp concealed in the powerful X-Ray Reflector. The light from this lamp is directed to the ceiling and from there re-directed, flooding the whole room with its beautiful, pleasing, clear indirect illumination.

Here at last is the gift which you will be sure is not duplicated—and you will know its recipients will be sure to keep it and be proud of it, for few of these artistic **indirect** portables are as yet in use.

It is unequalled as a wedding, holiday, birthday or anniversary present. Its artistic appearance and rich, refined beauty, together with its eminently practical utility, make it not only acceptable but of permanent value.

A Booklet About It

A booklet fully describing, illustrating and pricing this new and lovely lamp will be mailed on request.

"THE OWLS"

Almost Too Good to be True!

and you may have to rub your eyes and read it twice, but it really is true: Your choice of any PAIR of these genuine "Bronzekraft" Book Ends, reproducing famous masterpieces of ancient and modern sculpture, *absolutely free,* all charges prepaid, with a single year's subscription to *The Craftsman* (excepting the *Winged Victory,* which requires two).

There is no "catch"—no "charges for wrapping and mailing." It is distinctly understood that if either Magazine or Book Ends are not precisely as represented—indeed, if both are not even finer than you anticipated, your money will be returned and you may send back the Book Ends *at our expense.*

Or you can see these Book Ends before subscribing, at the Craftsman Building in New York, or the Craftsman Shops in Boston or Washington, and take with you the Book Ends you select or have them sent. Whether you write or call, please do so promptly if you wish them in time for Christmas, either for yourself or as a gift.

Works of Art FREE—for You and Your Friends!

Can you imagine anything better than these Book Ends for a Christmas Gift?—anything more beautiful? Apportion these Book Ends among your friends according to their tastes and bent of mind—they will go into raptures over the exquisite beauty and fitness of these masterpieces—and they will always be the object of admiration on the library table.

And so with *The Craftsman*—you pay a tribute to any friend when you present a subscription to *The Craftsman,* repeatedly called "the most worth-while magazine in America." Each monthly issue is really a book of 150 to 200 pages, with beautifully illustrated articles on home decoration, home building, good taste in furnishing, art, gardening, etc., and in the year to come the recipient will get twelve such books for $3.00, together with the set of Book Ends immediately.

We will accept not only your own subscription, but subscriptions for your friends; thus for each $3.00 you send us, you get two Xmas gifts—the Magazine and the Book Ends. We will send both to the same or to separate addresses, as you direct—together with a gift card.

"MERCURY, SEATED"

These "Bronzekraft" Book Ends are of solid, heavy composition, 8 in. to 10 in. high, with a rich, verde antique bronze finish, practically indistinguishable from solid bronzes.
